Portfolio - akankshabin1.github.io/Portfolio

Objective

Data-driven professional with 1.9 years of experience in manual and automation testing using Python, Robot Framework, and Selenium, now transitioning to a Data Analyst role. Proficient in Python, SQL and Power BI with strong skills in data visualization, generating actionable insights, and supporting data-informed decision-making processes.

Experience

Cognizant - Programmer Analyst | Feb 2021 - Oct 2022

Role & Responsibility - Automation Testing

- Actively participated in the entire SDLC. Involved in Test Planning, Test Design, and Test Execution, including Functional and Regression Testing.
- Automated test scripts using Python and Robot Framework, significantly improving test coverage and reducing manual teams effort.
- Conducted end-to-end testing/validation of telephony services, ensuring comprehensive test coverage by automating critical test cases.
- Point of Contact (POC) for multiple projects, managing daily progress tracking and updates to on-site team members.

Career Break

Oct 2022 - June 2024

- Focused on preparation for Defense Exams, honing analytical thinking, and problem-solving skills.
-

Exploratory Data Analytics Projects

- **Udemy Dataset Analysis (Python, Pandas, Matplotlib, Seaborn):** Analyzed course trends across subjects, pricing, and subscriber data. Identified correlations between key variables (e.g reviews, price, content duration) to determine drivers of course success.
- **Global Super Store Sales Report (Power BI):** Developed interactive dashboards and visualizations to analyze sales data, identify trends, and provide actionable insights to improve sales performance.
- **Zomato Analysis (Power BI):** Conducted an in-depth analysis of Zomato's performance, focusing on customer satisfaction and operational efficiency. Created visualizations to identify key business drivers.
- **Olympics Data Analysis (Python, Pandas, Matplotlib):** Conducted a comprehensive analysis of Olympic data, highlighting trends in performance over time. Key insights included the distribution of medals by gender, country medal counts, the total sports played, the male-to-female medal ratio, and the top 10 countries by gold, silver, and bronze medals won.

- **Sales Data Analysis (Python, Pandas, Matplotlib):** The analysis focused on enhancing customer experience, identifying opportunities to increase sales, and providing a detailed breakdown of sales variations across factors such as gender, age, location, state, marital status, and product categories.
 - **Tourist Website for Bangalore:** Created a web application using Python, Flask, HTML & CSS, showcasing key tourist attractions in Bangalore.
-

Academic Projects

- **PLUS (Patient's Life Upgraded Service) Wagon:** Developed a modified ambulance capable of being lifted in traffic to cross over other vehicles, significantly reducing travel time in emergencies.
 - **SMART HELMET:** Designed a safety helmet with alcohol detection sensors, which automatically disables the vehicle ignition when the rider is under the influence.
 - **Hybrid Cars:** Proposed a hybrid electric car that uses solar and wind energy, addressing fuel consumption and pollution issues.
-

Skills

- Programming & Tools: Python, Pandas, NumPy, Flask, SQL, JIRA, GitHub
 - Data Visualization: Power BI, Matplotlib, Seaborn, MS Excel
 - Testing Frameworks: Robot Framework
 - Data Analysis: Data Cleaning, Exploratory Data Analysis, Data Visualization
 - Soft Skills: Problem-Solving, Communication, Strategic Thinking
-

Education

VTU Bangalore *Bachelor of Engineering (B.E.) in Electrical and Electronics Engineering (EEE)*
2016 - 2020 | GPA: 7.21

Achievements

- Received the '**Doing the Right Thing, the Right Way**' award at Cognizant.
 - Published a paper titled 'PLUS Wagon' in IRJET, Volume 7, Issue 5, May 2020.
 - Presented a project proposal on 'Hybrid Cars' at EWB Chapters Meet Chennai Professional Chapter.
 - Presented the 'SMART HELMET' project at SS12-2018 Age of Innovation, organized by the Center for Q-rides.
-

Volunteer Work

- Communicative English Program for College Students: Led career preparation workshops.
- Mentoring at HHH: Provided guidance on anger management and communication skills.
- Outreach Bangalore Volunteering: Conducted spoken English sessions for BBA students at a government college.
